Explore Oberlin with the Heritage Center: Visit AgriNomix

The Oberlin Heritage Center is coordinating a tour of AgriNomix, North America's largest supplier of automation products and support services to the horticulture industry. The visit is part of a series of behind-the-scenes tours that allow interested members and guests the chance to explore local businesses and services and learn more about what makes the community run. The AgriNomix tour takes place Tuesday, July 2 beginning at 9 a.m., with company executives Rob Lando, CEO, Jack Ford, VP Sales, and Joe Smith, VP Manufacturing talking with the group about the North American horticulture industry, automation products being used, and the impact of this local company on the wider industry. Participants also will have the opportunity to see machine building in action as we tour the facility. Find out more about AgriNomix, which was founded in 1994, at www.agrinomix.com.

The tour will last approximately 90 minutes and visitors should expect to be on their feet for most of that time. Preregistration is required and the \$12 field trip fee (\$8 for OHC members) supports the programs and services of the Heritage Center. Register at www.oberlinheritagecenter.org or by calling (440) 774-1700. Plan to meet at 300 Creekside Drive, Oberlin shortly before 9 a.m. or call Liz at (440) 774-1700 to arrange for carpooling.

For more on this event or others hosted by the Oberlin Heritage Center, visit www.oberlinheritagecenter.org or call (440) 774-1700.
