42. Further Description of Important Interior and Exterior Features
   A carport was added to the rear (west side) of this house sometime after 1933, making the entire house look like a suburban ranch house compared to most of the other houses on the block. The front door is at the center of the façade, and there are cobblestones on each side of the stoop. There is a picture window to the left of the front door, and the window trim all around the house is carefully painted. There is a rectangular bay window on the north side of the house, and the north and south sides of the roof each have a large shed dormer. At the west corner of the north side of the house, steps lead from the driveway down to a basement door.

43. History and Significance
   This house was built around 1902, and Elisha W. Smith is the first known occupant, up through 1910. He lived here with his wife, Gertrude M., and their daughter, Josephine G. Reverend Ernest C. Partridge lived here in 1916, followed by Harold M. Metcalf from 1927 through 1942. G. I. Molyneaux moved in by 1956 and stayed through at least 1961 (City Directories). He was the longtime owner of Watson’s Hardware (Jane Blodgett).

44. Description of Environment and Outbuildings (see #52)
   A driveway on the west side of the house leads to the carport at the back of the house.
