---

The front of this house is symmetrical. A hip-roofed porch with groups of bowed Doric columns spans the front of the house. Of the four bays, the door is the right-most. On the second story are two windows with a small long narrow window between them. On top of the house is a gabled dormer with cornice returns and two windows. The east side of the house has a stringcourse, cornice returns, and on the first story an oriole window held up by braces with starburst patterns. Under this window is a door into the basement. On the west side is a two-story bay window with a hip roof, and an exterior chimney. The northwest corner of the house has a recessed porch with a balcony over it.

---

This house was built some time between 1896 and 1899, and the earliest known residents were Frank Beckwith, a local jeweler and the assistant postmaster, and his wife Minnie. In 1933 William Durand, architect, is listed as a resident alongside the Beckwiths, and by 1956, he and his wife were the only residents. In the 1960's, Sanford Shepard and his family lived in the house.
