This house retains many of its original features. The style can be considered Minimal Traditional with its combined Colonial Revival and Cape Cod elements and restrained ornamentation and size. The side-gabled, steeply pitched roof slants to a lower angle to create the front porch (west elevation), behind which the entry is recessed. Three decorative iron supports with S-curves appear to bolster the roof, connected by a balustrade. The front door is located at center, with two panels below a square window. To the left, the porch is even deeper. Here there is a large fixed square window with a lintel of vertical bricks and a stone slip sill. Five sidelights line the window at the center of this section. Above the porch in the roof there is a gabled dormer with a 1/1 double hung window, on the left. To the right a much larger cross-gable projects out from the roof. This contains a 1/1 double hung window at the center. Behind the entry is a large fixed square window at the end of the house. This window is flanked by paired double-hung windows, each with a single pane in the middle. The front porch (south elevation) has a large window on the first floor and a small window on the second floor. The porch roof is supported by decorative iron brackets. The garage is located behind the house, with a gable roof and entrance door.
1. No. LOR-02091-21
2. County Lorain
3. Present Name(s) Eddleman House
4. Historic or Other Name(s) Palmer-Panos House

8. Site Plan with North Arrow

54. Farmstead Plan:

- Door Selection: Single centered
- Door Position: Flush
- Orientation: Lateral axis
- Symmetry: Bilateral asymmetry

42. Further Description of Important Interior and Exterior Features (Con't)

hung window. Both the dormer and this projecting gable are clad in aluminum. The south elevation contains a square window with patterned glass block lights at left, next to a 1/1 double hung window. Both have a stone sill. A side door is located at center, and to the right is a 1/1 double hung window, larger than the two on the left, with a brick sill. In the upper story is a 1/1 double hung window. Both side gables, on the north and south elevations, feature two belt courses of vertical bricks, one a few feet above the ground, the other dividing the first story from the upper story. At the rear, the slope of the roof has been altered with a brick addition to the upper story. The north elevation is obscured by trees, but is dominated by the exterior chimney. There is a 1/1 double hung window in the upper story. At the rear of the house there is a one-story shaded patio with a fiberglass roof. The walls are composed of blocks with a flower-like pattern.

43. History and Significance (Con't)

Luther Sr. and Willsie are listed at this address until 1970. The Palmer, Dobbins, and Carter families were all African American. The next known resident was Robert Panos, who lived here from at least 1979 to 1991. Robert and his wife Fran worked at Oberlin College, Fran in the alumni office. They had four children, all graduates of Oberlin High School: Greg, Cindy, Shirley, and Richard. David and Carol Eddleman are the current owners and have been since 1994. They were listed as residents from 1994 to 2007.
