## Description of the Property

This two-story, vernacular home has a slate, pyramidal roof, a front-facing gable, and a shed dormer on the side facing north. Every window appears to have been replaced and there is little symmetry in the placement of the windows and doors. A front porch extends along the width of the house; the porch has a flat roof supported by simple Doric Style posts. The posts rest on a shingle-covered wall that has no foundation and may be a later addition. A wood beltcourse surrounds the house and divides the first and second stories; at this division the siding has a slight outward flair.

### History and Significance

This house was built in 1905 by Fred Glider, a carpenter (Blodgett). This address had listings prior to that date and it is assumed that the listed house was demolished. Those listing are: George B. Logue (1894); Armstrong (1896); Anse and Minnie Krehn (1899). In 1907 carpenter Jacob Mason occupied this house. From 1908 through 1963 Fred and Louise Glider were listed as occupants (City Directories). The Gliders passed the house to their daughter and son-in-law, Margaret and Harold Papworth, and their daughter-in-law, Margaret and Harold Papworth,

### Description of Environment and Outbuildings

The 200 block of North Professor, where this house is located, is a mix of 19th and 20th century homes.

42. Further Description of Important Interior and Exterior Features (Continued from page 1)

43. History and Significance (Continued from page 1.)

This house is significant as a representative of builder-constructed, turn-of-the-century homes in Oberlin. The house is unusual for its long history of ownership by the family of the original builder. The City of Oberlin listed the house as an Oberlin Historic Landmark in November 1997.
