This modest vernacular home has wood shingles, with a geometric pattern to them. The door is located at the center of the main facade, and has a pedimented hood with knee braces above it. Brick steps with cement caps have an iron railing that lead up to the stoop. Six-over-six windows flank the door, and a pair of the same windows, with shutters, is located in the second story. A louvered vent is located in the attic. At the north elevation, continued...

This house was built between 1935-1937 for Charles Herman Davis and his family (City Directory). Herman was a graduate of Oberlin High School and was an engineer superintendent at the Oberlin Water Department and a superintendent of the Wastewater Treatment Plant in Wellington (O-High Alumni). He lived here with his wife, Miriam E. (Martin) and two sons, Charles and Dennis. Herman and Miriam both died in January 1997 (Oberlin News-Tribune), at which time Dennis Davis acquired the home. Dennis continued...

A detached building behind the house has an exterior chimney and siding in the same pattern as the house. A door is located at the enclosed area of the north elevation, which has a shed roof. This structure appears to be a small home. A shed is located behind the building. The house and its outbuildings appear to be in stable condition, as do the surrounding homes.

42. Further Description of Important Interior and Exterior Features (Con't)

- six-over-six windows are located at the left corner and towards the right side. A small three-over-three window is located near the center of the elevation, and a shed dormer is located in the second story with the same window. The south elevation features an exterior chimney. A door is located to the left of the chimney, near the center of the elevation. A six-over-six window is located above the door, as well as to the far left and right sides. At this elevation, the exposed rafters are visible below the eaves.

43. History and Significance (Con't)

- sold the house to the current owner in 1997 (Property Card).

44. Description of Environment and Outbuildings (Con't)
