**History and Significance (Continued on Reverse if necessary)**

This house was built around 1950 for the first known owners, W. Blair and Laura Stewart by Max Ratner and Douglas Johnson (Blodgett 214, Petersen). W. Blair was a dean at Oberlin College (Blodgett 214, City Directory). By 1961, Harold W. and Charlene M. Peterson had moved into the house with their two children (City Directory). Harold was an assistant professor at Oberlin College (City Directory), and a Class Agent in the Conservatory Cluster in 1944 (Oberlin College Online). In 1968, Alfred continued...

**Description of Environment and Outbuildings (See #52)**

The house is in good condition. It is located in a residential area of contemporary homes.

42. Further Description of Important Interior and Exterior Features (Con't)  
the work of Charles Moore and Robert Venturi, because it displays colliding shed roofs that form geometric shapes, and a recessed door. The main facade has two shed roofs at each end that rise up towards the center of the house. A side gable that sits lower than the shed roofs interrupts them. The exterior of this house has little ornament, aside from the drop or novelty clapboard siding. Two wide, short windows are located at the right corners of the left side, second story of each tall section. The second story of the left half of the facade projects over the first story, which has no visible windows. The right side of the facade has a one-car attached garage with a flat roof, and the garage extends from the house. The center of the elevation has large windows to the right of the door; the windows span the first and second stories. At the eastern elevation, a band of windows is located on the eastern side.  

43. History and Significance (Con't)  
F. and Anna W. MacKay occupied the house with their two children (Property Card).
